

Total Crude Oil Production on Federally-Owned Land (Onshore and Offshore) 2006-2011

Source: U.S. Energy Information Administration

Figure 3 shows the total crude oil production on federally-owned land (onshore and offshore) from 2006-2011. The red lines represent the number of barrels produced during the last three years of the Bush Administration, and the blue lines represent the number of barrels produced during the first three years of the Obama Administration.
